Unit tests 01 - Introduction

... done with support of

Figure 1: scheidt&bachmann

Agenda

- ▶ Lessons learned from previous lesson (Rule of 5)
- ▶ Intro into containers
- ▶ Establishing containers for demonstration

Lessons learned from previous lesson (Rule of 5)

Class has several function, that are used when we alter lifecycle of class (either by new creation, assigning of copying from already existing classes). Each of them can be default, user defined or deleted.
